

CHANGE ENVIRONMENT CHECKLIST

- Assess your current denture procurement process and identify your pain points, challenges, and goals
- Compare and select the best SaaS platform for your dental practice
- Set up and configure your SaaS platform and integrate it with your existing systems and processes
- Create and manage user accounts and logins for your staff and users
- Train your staff and users on how to use the SaaS platform
- Monitor and evaluate the impact and value of the SaaS platform on your denture procurement process and compliance
- Communicate and collaborate with your SaaS vendor and your denture suppliers
- Consider the potential risks and challenges of the change, and how to mitigate and manage them
- Have a contingency plan and a risk management strategy
